FRONIUS GALVO

/ The future-proof inverter for small self-consumption systems.

/ The Fronius Galvo is the ideal companion for consuming self-generated solar power in your own home. The single-phase inverter is available in the 1.5, 2.0, 2.5, 3.0 and 3.1 kW power categories. In many cases, the Fronius Galvo is also installed in existing systems as a replacement for old inverters. It can be mounted both indoors and in protected outdoor areas.

FLEXIBLE APPLICATION

- / Suitable for all module technologies
- / Can also be easily installed in an existing photovoltaic system to replace old equipment

OPTIMISES SELF-CONSUMPTION

- / Lower dependency on external energy suppliers
- / Reduced household costs

COMMUNICATIVE THROUGH WLAN

- / Data such as financial yield, CO₂ savings etc. are clearly presented on the computer using the free Fronius Solar.web online portal. Also available as a smartphone app!
